## Microsoft Solutions Partner Designation for Modern Work

**Ottawa, ON** – Orangutech has achieved Microsoft's Solutions Partner Designation for Modern Work and is currently working towards a Specialization in User Adoption and Change Management. This designation reflects Orangutech's deep technical expertise and long track record of delivering successful client projects focused on digital transformation leveraging the Microsoft platform.

Solutions Partner Designations replaced Microsoft's legacy competencies to better align with market demands and changing customer needs. The narrower scope allows for organizations to better understand and differentiate between the types of solutions Microsoft partners are trained, accredited, and experienced in delivering.

In attaining the Solutions Partner Designation for Modern Work, Orangutech has demonstrated project expertise in the following work areas:

- Deploying, driving adoption of, and managing M365 apps and services to help customers work, learn, organize, connect, and create.
- Empowering personal computing with deployment and modern management services.
- Implementing, driving adoption of, and managing Microsoft Teams for collaboration.
- Delivering services and solutions to digitally enable customers' frontline workers.
- Delivering employee experience services and solutions for Microsoft Viva to help customers harness knowledge and expertise, amplify culture and communications, accelerate skilling and growth, and balance productivity and wellbeing.
- Building custom apps and solutions on the M365 platform to meet specific customer needs

As a long-time Microsoft Gold Partner in multiple legacy competencies, Orangutech is committed to attaining the highest level of partnership available to better serve our clients.

**About Orangutech**

[Orangutech](https://www.orangutech.com) is an Ottawa-based Microsoft Solutions Partner for Modern Work. Founded in 2003, Orangutech helps clients modernize their workplace while maximizing user adoption and effective collaboration using Microsoft-centric services and software. Orangutech is Ottawa's recognized leader in User Adoption, Information Management, and Business Process Optimization for Microsoft 365, SharePoint, and MS Teams.
